

Reservoir Solutions from SunSource

SunSource is uniquely qualified to offer complete reservoir solutions. Our expertise in fluid power design and engineering allows us to offer reservoirs that match your application needs. The SunSource Advantage can provide the following to reduce your manufacturing and operating costs:

- Optimized Reservoir Design
- Reservoir Cleanliness Expertise
- 100% Inspection
- Painted or Powder Coated to your Specifications
- Private-Labeled
- Reservoir Component Selection
- Reduces the Number of Part Numbers to Purchase and Inventory

More Choices in SunSource Offerings

SunSource provides reservoirs and fuel tank applications for many different industries and equipment:

- Construction
- Agriculture
- Crane
- Mining
- Compaction
- Forestry
- Utility Vehicles
- Turf

SunSource can add custom features such as integrated steps, access covers, baffles, and any style port or fittings to ensure a compact and efficient design.

Ask your Account Manager about solutions for all your reservoir needs.

We provide custom reservoirs and tanks of different sizes and shapes.

Our expertise in reservoir and tank applications will help your engineering staff with their current and future reservoir designs.

Reservoirs supplied by SunSource can include filters, fittings, valves and other components saving valuable assembly time.

Custom Reservoir Application Data Sheet

Date: _____
 SunSource AM: _____
 Customer: _____

Phone: _____
 EAU: _____

Application Notes:

Material Type and Thickness _____

Paint: _____ Primer: _____ Powdercoat: _____ Color _____

Return Filter: _____ Intank or Spin-on: _____ GPM: _____ Micron: _____

Cleanout Cover: _____ Diameter: _____

Baffle: _____

Return Tube: _____ Length: _____ Size: _____
