

Keeping Industry Working with Unparalleled Service & Repair

Remanufactured Hydraulic Products

Comprehensive Testing

24/7 Support Program

A Company with a Solid Reputation

The foundation for SunSource's impressive reputation has been built by merging a select group of industrial distribution companies. Each had a proven track record of serving their customers well and being the industry leader in their geographic region. You may have known SunSource under some of these other well known names:

Activation • Air-Draulics • Air-Dreco • Fauver • Fluid Power Tech • Fluid Process Equipment • Ford-Gelatt • Hydraulic Specialists • Northwest • Pabco • Paragon Technologies • Perfection Servo Hydraulics • TOPSSCo • Walter Norris • Warden Fluid Dynamics • Warren • Wistech

We recognize the brand equity in these names. It is their history, and their experience that separates SunSource from a traditional parts-in-a-box distributor, and provides you with a valuable resource to tap into.

We service all hydraulic brands including:

- Cessna
- Char-Lynn
- Delavan
- Denison
- Dynapower
- Dynex
- Eaton
- Fairfield
- Hagglunds
- Hartmann
- Hydreco
- Kawasaki
- Linde
- Nachi
- Oilgear
- Parker
- Poclain
- Rexroth
- Ross
- Rotary
- Power
- SAI
- Danfoss
- Staffa
- Sundstrand
- Vickers
- Volvo
- White

We Handle the Complete Repair Spectrum

Hydrostatic and Hydraulic Remanufacturing

SunSource Hydraulic Service & Repair Centers remanufacture all brands of hydraulic components and systems to meet and exceed OEM performance specifications. SunSource is a factory authorized warranty repair center for many of its product lines providing the performance needed in your toughest application. Peace of mind is knowing that each unit undergoes stringent testing to assure "like new performance" in the field.

Largest Remanufactured Unit Exchange Program

SunSource provides our customers the industry's largest supply of remanufactured components, rebuilt assemblies, and replacement parts, which is fully supported by our nationwide network of repair centers. SunSource's Remanufactured Programs are your solution to lowering your inventory levels and your operating costs.

Training and Hydraulic Schools

SunSource can provide basic hydraulic training and troubleshooting classes for our customers

Field Service

SunSource will provide a qualified fluid power specialist to troubleshoot your equipment

Thoroughly Inspected and Professionally Assembled

Pumps and motors are completely disassembled and inspected by a factory and internally trained technicians. Parts are polished on a lap table, not surface ground. Assembly is performed by our technicians in a clean, controlled environment, with proprietary tooling.

Internal parts are measured for adequate tolerance and required parts are logged for ordering.

Assembly is performed in a clean, controlled environment using proprietary tools by an internal and factory trained technician.

High tolerance, in specification parts are polished and inspected for assembly.

Pumps and motors are leak tested on a state of the art 250 HP test stand, capable of up to 6000 PSI. All pressures are set to exact OEM specifications; tests are recorded and stored for future reference.

SunSource has built a nationwide network of over 54 Sales and Service locations with the best coverage to support you. Contact your local Service & Repair location today, and put our expertise to work for you!
